

ROOM PYRAMID and MERKABAH

Pyramids are usually considered to be a large tomb - the tomb where Egyptians buried their rulers - the Pharaohs. The pyramids are indeed most characteristic sign of Egypt, but they are found also on all corners of our globe and on other planets. So that cannot be true.

A **PYRAMID** is an **ANTENNA** that can receive or transmit signals (ENERGY). It is a kind of reservoir of cosmic and terrestrial energy that creates a special energy field in which different substances change their properties.

ROOM PYRAMID ROOM MERKABAH – Carriage of Light

The room version of **MERKABAH** consists of two equilateral pyramids which are placed in opposite direction. The space between the two pyramids connects earth and cosmic energies and balances feminine and masculine principle. It creates a neutral **FREE ENERGY** field that can be used for a specific purpose.

The energy can be used in meditation for manifestation, protection, cleansing and for raising the level of energy and consciousness. It supports all our projects and events ...

ROOM PYRAMID and MERKABAH

- ❖ Supporting business premises, especially when working with clients.

MERKABAH – Carriage of Light

When working with MERKABAH, we MANIFEST and make true our wishes and intentions and thus we **PROGRAM FREE ENERGY**.

When we slowly reach into the Merkabah space, we can feel the energy. Some people feel the heat, the tingling, or some other sensation in the palm of their hand, others feel the movement in their whole aura.

The automatic process of harmonizing our energy field begins immediately. This vibration also directs us more clearly to a sincere intention that in many cases goes to the core of the problem that we want to solve.

The desire or intention is realized through water, crystal, food or other objects that are placed in the space of the Merkabah.

It is enough to put the object for ten to fifteen minutes to Merkabah for the imprint of correct information into the object.

ELECTRONIC MERKABAH - Electronic Carriage of Light (ELC)

Electronic MERKABA is an upgrade of the basic MERKABAH. It is intended for those who are more familiar with bioenergy, supporting bioenergetics and other healers in energy work with clients. In addition to the described properties of the basic MERKABAH, the electronic PYRAMID and MERKABAH enable:

- ❖ creating a resonance effect by changing the electromagnetic field in MERKABAH*,
- ❖ creating a sound treatment effect by changing the sound frequency*,
- ❖ by changing the frequency across the chakras, the colour spectrum of light also changes, thus creating the effect of chromotherapy* or colour therapy*.

These effects are achieved when we sit in an electronic PYRAMID or when an electronic MERKABAH - carriage of light - radiates and shines into space.

1. Operating mode: **MANUAL** or **AUTOMATIC**
2. Operation - Preset frequencies for:
 - **PHYSICAL BODY**
 - **ENERGY BODY**
 - **UP** - from the 1st chakra to the 6th chakra
 - **DOWN** - from the 6th chakra to the 1st chakra
 - **Support in calming and meditation**
Preset are 10 different frequencies for pain relief, influencing the energy body, creating a pleasant mood, awakening of our intuition...
3. Possible setting of operating time from **1 minute** to **10 minutes**
4. The colour spectrum of light also changes according to the chosen programme, chosen chakra or other chosen support.

WORKING WITH MERKABAH

1. Before working with **MERKABAH**, we must respectfully ask the energies of **MERKABAH** (spirit, master...) to allow us to work with it.
2. We must express in our minds a sincere **INTENTION WHAT WE WANT**.
3. Put the object onto the disk in **MERKABAH**.
4. Select a colour that feels right.
5. After the work is done, **THANK** to the energies of **MERKABAH**.

When working with MERKABAH, we should never wish ourselves or others something negative! When we do work on behalf of others, we must always have their consent.

EXAMPLE

1. Please the energies of **MERKABAH**, allow me to work with you.
2. Please **MERKABAH**, allow me to put a glass of water in your energy field.
3. I put a glass of water on the disk in **MERKABAH**.
4. **MERKABAH** energies I ask you to fill a glass of this water with energy that will help me cleanse and regenerate my body, and take away the pain in my right knee.
5. Based on my intuitive feeling, I choose the colour of the light using the remote.
6. Leave the the glass of water for a while, e.g. 15 minutes, in **MERKABAH**.
7. **MERKABAH thank you** and we take the glass and drink the water.

TREATMENT IN THE PYRAMID

The primary purpose of the treatment is cleansing, regenerating and starting the process of self-healing of our bodies, chakras and auras. The whole meeting and treatment takes a good hour.

The treatment includes:

1. Short introduction and discussion.
2. Recording AURA with a Kirlian camera, which involves scanning all fingers of both hands.
3. Checking the status of aura and chakra, diagnose and selection of therapy in the pyramid.
4. Therapy in the pyramid can last from a few minutes to 40 minutes, depending on the chosen programme.
5. Recording of the Aura after the treatment and new checking of the status.

Testimonial of a person who has been using the (CL) Carriage of Light over a longer period of time.

We need to know that large and small pyramids have a similar affect.

I choose an CL because it allows me:

- ❖ To regenerate drinking water from a tap and program it for body regeneration or for personal healing. I drink freshly vitalized water early in the morning and several times during the day.
- ❖ To increase the energy level of fruits and other food left in CL overnight, food remains fresh for a longer time and does not deteriorate.
- ❖ To clean the crystals and jewellery that I leave overnight at CL.
- ❖ If I put a larger crystal of quartz in CL and turn on the light of different colours, I can increase the favourable radiation + E into the space around CL. If I put the CL itself in the center of the room, I can improve living and working conditions because CL neutralizes the harmful radiation of the television, computer and other appliances in the apartment.
- ❖ If we stay close to CL, we can feel the beneficial effect of the positive energy it radiates.
- ❖ When CL is placed near to bed, we can ask a question before falling asleep and we get an answer during the night in a dream or when waking updo.

I wish all of you who are testing the benefits of the pyramids many wonderful moments and interesting experiences.
